Role

A role allows you to restrict the use of the BO to certain parts. It is possible to define one or more roles for an administrator.

Displaying a role

A role must have one or more functions. In the example below: there is only one function: "Form – Responses" which allows you to view, modify or delete responses from forms.

1		Formulaire - Réponses								Tous •	•	
		+ Ajouter une fonction						Annule	r Enregist	rer Enregistrer	et Fermer	

List of available functions

The Back Office (BO) is divided into several functions.
