Administrator

Administrator administration allows you to view existing administrators, edit, delete or add administrators.

An administrator is a person in charge of using the Back Office (BO) according to the roles assigned to him.

The screenshot shows a web interface for managing administrators. The page title is 'ADMINISTRATION DES ADMINISTRATEURS'. The breadcrumb trail is 'Administration des administrateurs'. The interface includes a search bar, a table of administrators, and a '+ Ajouter' button.

By default, the creation of an administrator gives him access to the whole BO :

Example of an administrator restricted to one role: "Forms response". See "Role" to see how to create this role.
