## Parameters

The Form / Settings Menu allows you to manage or create the different forms attached to the selected Application.

The table displays :

- The Form Label
- The Email recipient of the answers to the form
- Active Form (Y/N)
- End date of validity of the form
- The action buttons :
  - Answer Button (Display Answers)
  - Edit Button (Edit Form)
  - Duplicate button (Duplicate without the answer)
  - Delete button (with confirmation)

Add Form Button: Switch to edit mode to add a form

The screenshot shows a web interface titled 'FORMULAIRES' with a sidebar on the left and a main content area. The main area contains a table with the following data:

Libellé	E-mail	Actif	Date fin de validité	Action
CR Intervention	contact@mail.fr	Oui	29/12/2017	[Answer] [Edit] [Duplicate] [Delete]
Demande d'information	contact@mail.fr	Oui	29/12/2017	[Answer] [Edit] [Duplicate] [Delete]
Reservation Conférence	contact@mail.fr	Oui	29/12/2017	[Answer] [Edit] [Duplicate] [Delete]
Reservation resto	contact@mail.fr	Oui	29/12/2017	[Answer] [Edit] [Duplicate] [Delete]
Signalement	contact@mail.fr	Oui	29/12/2017	[Answer] [Edit] [Duplicate] [Delete]
Sondage	contact@mail.fr	Oui	29/12/2017	[Answer] [Edit] [Duplicate] [Delete]

Below the table, there is a pagination bar showing 'Affichage de l'élément 1 à 6 sur 6 éléments' and a red button labeled '+ Ajouter un formulaire'.

## Editing a form

Editing is managed through 3 tabs :

## General tab

- Wording of the form
- Category :
- Single response (Y/N) per mobile user. Case of a survey for example
- Modifiable by the creator (mobile user)
- Displaying response history (application)
- Allow drafts (application)
- On (Y/N)
- Text displayed on the validation button of the form
- Text of the message of validation of the form by the mobile user
- Redirection after validation
- Validity start date and time
- Date and time of expiry

The screenshot shows the 'Général' tab of a form configuration interface. The form is titled 'Demande d'information'. The settings are as follows:

Setting	Value
Libellé *	Demande d'information
Catégorie	Catégorie
Réponse unique	<input type="checkbox"/>
Modifiable par le créateur (mobinaute)	<input type="checkbox"/>
Affichage de l'historique des réponses (application)	<input type="checkbox"/>
Autoriser les brouillons (application)	<input checked="" type="checkbox"/>
Activé	<input checked="" type="checkbox"/>
Texte du bouton de validation *	Envoyer
Texte de validation *	Votre demande a été transmise
Redirection après validation	Aucun
Date et heure de début de validité	15/09/2016 0:00
Date et heure de fin de validité	29/12/2020 0:00

## Recipient tab

- Recipient e-mail(s): multiple e-mails can be entered, separated by “;”
- Recipient e-mail(s): multiple e-mails can be entered, separated by ;
- Reception of the email by the mobile user: if this option is checked, the identified mobile user who answers the form from the application will receive his answer by email when validating the form entry.
- Reception of the mail by :
- Conditional recipients: Allows you to define e-mail recipients who will receive the response for entering a form according to the value of the response data. (See below)

FORMULAIRES

## Data Tab

Orderly list (by Sequence Order) of form fields :

- Label
- Type of data
- Activated or inactive
- Mandatory or optional
- Duplicate Button
- Delete button
- Move button (by drag and drop)

The "Add Field" Button allows you to create a new field in the form.

Général Destinataires Données

▸ **Type intervention** - Liste choix unique - Activé - Obligatoire

▸ **Pression pompe** - Numérique - Activé - Facultatif

## **New field**

Editing a field allows you to fill in the following elements :

- Label (Text)
- Type of data (see table below)
- Active (Y/N)
- Sequence Order
- Mandatory Data (Y/N)
- Min of a numeric data or date or time or date/time
- Max of a numeric data or date or time or date/time
- Length of a text data
- Regular expression for response validation. Help and Test
- Default value displayed in the form. It is possible to display in this field, data of the connected mobile user: more info
- If list: list of values in the list with the button " Add a value ".
- Error message text
- Placeholder text input help text

▸ **Pression pompe** - Numérique - Activé - Facultatif

**Libellé \***

**Type de donnée**

**Visibilité**

**Activé**

**Ordre**

**Obligatoire**

**Nom de la variable script**

**Min**

**Max**

**Expression régulière**

**Valeur par défaut**

**Texte message erreur**

**Texte placeholder**

**Conditions d'affichages** [Ajouter des conditions d'affichages](#)

Depending on the type of data, the information taken into account is .

Type	Note	Limite min	Limite max	Longueur
<b>Text</b>		N/A	N/A	Number of characters
<b>Long Text</b> (Several lines)		N/A	N/A	Number of characters
<b>Integer</b>		Minimum value	Maximum value	N/A

<b>Number</b>		Minimum value	Maximum value	N/A
<b>Date</b>		Minimum value	Maximum value	N/A
<b>Time</b>		Minimum value	Maximum value	N/A
<b>Date and time</b>		Minimum value	Maximum value	N/A
<b>Single selection list</b>		N/A	N/A	N/A
<b>Multiple selection list</b>		N/A	N/A	N/A
<b>Checkbox (Y/N)</b>		N/A	N/A	N/A
<b>Email</b>		N/A	N/A	Number of characters
<b>URL</b>		N/A	N/A	Number of characters
<b>Label</b> : Text display in the form No answer possible	Enter Default value	N/A	N/A	N/A
<b>Photo</b> (via camera or mobile gallery)		N/A	N/A	N/A
<b>Position</b> : GPS coordinates not visible to the mobile user		N/A	N/A	N/A
<b>Digital signature</b> allows you to sign with a stylus or your finger		N/A	N/A	N/A
<b>Phone</b>		N/A	N/A	Number of characters
<b>Scan Code</b> : reads barcode or QRCode		N/A	N/A	N/A
<b>Page break</b> : allows you to define several form screens		N/A	N/A	N/A
<b>Adress1</b> : allows you to enter in address format		N/A	N/A	N/A
<b>Picture</b> : display an image in the form. No answer possible		N/A	N/A	N/A

## Conditional Recipients

In addition to the (permanent) recipients of the responses to the form, it is possible to define conditional recipients who will receive the responses to the form according to a sequence of conditions defined by the values of the responses.

A condition consists of :

- a form field (chosen from the list of profile fields)
- an Operator among a list (for example: equal, different, superior, ...)
- possibly one or more values

**E-mail(s) destinataire(s)**

*Pour un envoi vers plusieurs adresses e-mails, séparez-les par des points-virgules.*

**Condition de réception**

	<input type="text" value="Type intervention"/>	<input type="text" value="parmi"/>	<input type="text" value="Vérification"/> <input type="text" value="Maintenance"/> <input type="text" value="Réparation"/>	<input type="button" value="🗑️"/>
<b>ET</b>	<input type="text" value="Indice noircissement de"/>	<input type="text" value="est supérieur à"/>	<input type="text" value="7"/>	<input type="button" value="🗑️"/>

Rules according to field type :

- Text / Long Text / email / URL
  - Operators : equal, different, starts with, contains, ends with
  - Value : text to be entered
- Integer / Numéric
  - Operators : equal, different, higher, lower
  - Value: numeric to be entered
- Date
  - Operators : equal, different, higher, lower
  - Value: Date to be entered
- Time
  - Operators : equal, different, higher, lower
  - Value : hour: minute to be entered
- Date - Time
  - Operators : equal, different, higher, lower
  - Value : date + time to be entered
- Check box
  - Operators: checked, unchecked
  - Value: n/a
- List
  - Operators: among, excluding
  - Value: List of multiple-choice values
