Responses

Each time a mobile user validates a form's response, the response data are :

- sent by email (with a PDF file attached) to all the emails filled in the form
- stored and accessible in the back office

The access to the answers to the forms, is possible through 2 methods :

- Form Menu / Settings and Action Button "Answers" on the right of each line of the forms table. Only the answers of this form are displayed.
- Form / Answers Menu. All the answers of all the forms (classified by answer from the most recent to the oldest) are displayed.

For a form, the administrator can export all the answers in a CSV file. (via the 1st method)

The screenshot displays the 'VOIR LES RÉPONSES' (View Responses) page. At the top, there's a navigation bar with a user profile 'jean Martin'. Below it, the page title 'VOIR LES RÉPONSES' is shown. A search bar with the text 'Rechercher parmi les réponses' is present. Below the search bar, there are filters for 'Tous les formulaires' and a date range '15/08/2019 - 13/09/201'. A table of responses is displayed with columns: 'Date réponse', 'Formulaire', 'Identifiant', 'Version', 'Mobinaute', and 'Action'. The table contains one row of data: '13/09/2019 13:26:21', 'Demande d'information', '3054-00000001', '1', and a set of action icons. Below the table, there's a 'Filtrer sur les résultats' field. At the bottom, there's a 'Purger' button and a pagination control showing '1' of 1 items.

The response table can be filtered (based on the values in the displayed columns) via the input field "Filter on results".

The possible actions via each answer line :

- See details of the answers on one page (with photos and GPS positions)
- See PDF file of the answers
- Delete the answer
- Resend the answer by e-mail to the recipient(s)

Search among answers button

In order to search for form responses based on the values entered by mobile users, click on the “Search among responses” button.

A search screen allows you to define :

- The Value searched among the form fields (text, numeric, date, ...)
- The target form(s)
- The response validation period

A search screen allows you to define :

- The Value searched for among the form fields (text, numeric, date, etc.)
- The target form(s)
- The response validation period

The screenshot shows a web interface for searching among responses. The title is "RECHERCHER PARI LES RÉPONSES". The interface includes a search input field labeled "Recherche", a dropdown menu for "Tous les formulaires", a date range field "15/08/2019 - 13/09/201", and a green "Rechercher" button. The top right corner shows the user name "Jean Martin" and a dropdown arrow. The top left corner has a red circular icon with a white 'S' and a hamburger menu icon. A vertical sidebar on the left contains various icons for navigation and settings.

By clicking on the “Search” button, the table of answers shows the answers that meet the search criteria.
